ABOUT US

Algonquin College Rocketry (**ACR**) is not just a team; we are a mission-driven collective Igniting the Arc of Innovation to Soar Among the Stars!

ACR is a multidisciplinary team that aims to design and build a rocket that will reach **Mach 2** and **22,000 feet**. Our team is constantly improving our skills in various fields such as mechanical, electrical, robotics, and computer engineering, as well as business, marketing, and graphic design.

MISSION & GOALS

ACR's mission is to create the **best rockets possible**, *showing our skills and innovation while improving our team's abilities and representing Algonquin College.*

We're competing in the **Basic Category** of the **2025 Launch Canada Competition** against *Universities across Canada*. The Basic Category limits design to exclusively **commercial off-the-shelf parts (COTS)**. In the **future**, we *plan to participate in Launch Canada's Advanced Category and the Spaceport American Cup.*

SHORT TERM GOALS

Design, test, build, and successfully launch our Rocket.
Reach a launch apogee of over 22,000ft and Mach 2.

MEDIUM TERM GOALS

Advance to higher levels of the Launch Canada competition.
Expand our outreach efforts.
Enhance our team self-sufficiency.

LONG TERM GOALS

Compete in future Launch Canada Competitions as well as Spaceport America Cup.

WHY SPONSOR US?

Your support is not just a **sponsorship or donation**; *it's an investment in the future of the engineering and aerospace industry of Canada.*

You will **impact the education, development, and growth of aspiring young professionals**. Your **support** will be directly fostering the growth of **tomorrow's leaders in STEM**. By helping **Algonquin College Rocketry**, you will be the catalyst that propels us to **victory and beyond**.

COMMUNITY AND OUTREACH

ACR is committed to **inspiring** the next generation to pursue a fulfilling career in **STEM**. Our **outreach** program consists of donating **3D Printers** and introducing 3D modeling to young students. This mission is directed at **elementary and high schools**, especially in **low-income areas**, with the goal to ignite a passion for **engineering** and **STEM** in young minds. Your brand will be associated with these noble initiatives, showcasing your commitment to social responsibility.

VISIBILITY

We ensure that your brand gains **extensive visibility**. Your logo and brand name will be *prominently displayed* on our **rocket, team jerseys, event banners, social media, and all other promotional materials**. This repeated exposure at **Launch Canada**, educational and community events, will enhance your brand's **recognition** and **prestige** within the community and industry.
